King Size Cone Filler

Insert Cones

Place your King Size Cones into each designated slot. Make sure the bottom lid is secure.

Grind & Go

Prepare your herbs of choice to the perfect texture, not too fine, not too chunky.

Fill It Up

Sprinkle your ground herb evenly across the top, covering every opening like the organized legend you are.

Tap & Settle

Tap the Gbox lightly against a surface to help everything settle neatly, use your Gbox Poker to gently press down the herbs in each cone, press lightly, we're packing, not squashing.

Reveal the Goods

Remove the bottom lid and set the Gbox down and watch your cones pop up like magic. Grab each one and twist the tip, and you're ready to buzz.
